Rita joined in carpet bowls for the first time as staff found a

set of smaller balls for her to use.

She sent the balls down the green, even hitting the jack and at the end of the session, she came in fourth.

Congrats to Rita on a job well done.

2021 RESIDENTS' FOOTY TIPPING COMPETITION

Covid-19 restrictions last year meant we were unable to conduct the usual Woods Point Residents Footy Tipping Competition.

But, with restrictions eased in 2021, the AFL Season is up and running - as is our 2021 Competition. However if the 2021 AFL Season is adversely impacted by Covid-19 restrictions, this year's competition may have to be cancelled. If that happens, all entry fees will be refunded.

This year 32 keen resident tipsters have entered the competition, giving us an initial prize pool of \$640-00. Any \$4-00 Weekly Jackpot wins will reduce that figure accordingly.

As this article goes to print, two AFL rounds have been played and Bill Large leads the field with 15 correct tips, hotly pursued by four others - Cam Blackley, Lorraine Magill, Betty Hutchinson and Helen Gaulke - each on 14. Lorraine Magill also became the first tipster clever enough to pick 9 winners. Lorraine did this in Round 2 and collected the \$8.00 Jackpot for her effort.

Weekly tipping results will be displayed for all to see on the progressive score sheet on the notice board in the Main Lounge.

When an incident occurs at Bentley Wood the following analysis is undertaken:

- What, how and why did the incident occur?
- What can be done to reduce the risk of reoccurrence?
- Strategies to prevent further incidents explored and implemented.
- Open disclosure with resident and representative. Open disclosure is the open discussion that an aged care provider has with consumers when something goes wrong that has harmed or had the potential to cause harm to a consumer.

What could be learnt from this?

This evidence will be required for the new SIRS program and our systems are in place to report to SIRS program.

A Fact sheet is located at front reception for consumers and representatives titled 'What is the SIRS?' or you can download from www.agedcarequality.gov.au

If you have any questions, please do not hesitate to contact staff at Bentley Wood.

This month we are sharing information regarding the new scheme introduced by the Aged Care Quality and Safety Commission

Serious Incident Response Scheme – SIRS

The Serious Incident Response Scheme (SIRS) is a new initiative to help prevent and reduce incidents of abuse and neglect in residential aged care services.

SIRS sets new arrangements for approved providers of residential aged care to manage and take reasonable action to prevent incidents with a focus on the safety, health, well-being and quality of life of aged care consumers.

Approved providers will be required to have in place an effective incident management system and to use this to continuously improve the management and prevention of incidents.

Under SIRS, approved providers will be required to report a broader range of incidents to the Commission than previous arrangements.

Incidents must be reported within set timeframes depending on the level of impact to the care recipient.

The SIRS aims to:

- *strengthen aged care systems to reduce the risk of abuse and neglect*
- *build providers' skills so they can better respond to serious incidents*

- *enable providers to review incident information to drive improvements in quality and safety*
- *reduce the likelihood of preventable incidents from reoccurring*

ensure people receiving aged care have the support they need.

The SIRS has 2 key components:

- *Incident management obligations*

Compulsory reporting obligations.

Incident management obligations

The SIRS requires every residential aged care service to have in place an effective incident management system – a set of protocols, processes, and standard operating procedures that staff are trained to use. This means adopting a systematic approach to minimise the risk of and respond to, incidents that occur in a residential care setting. An incident management system is vital in supporting residential age care services to effectively manage risks to their consumers, visitors and staff.

Compulsory reporting obligations

In addition to managing all incidents, approved providers will be required to report serious incidents involving aged care consumers
